Attached to the Notice of Allowance and Issue Fee Due were two initialed Form PTO-1449's. One dated October 14, 1999, by a Patent Office date stamp, indicated that Great Britain Patent Specification No. 1,193,713 had been considered. The second Form PTO-1449, date stamped January 3, 2000 lined out Great Britain Patent Specification No. 1,198,713 as being a duplicate citation. The note that it was a duplicate citation is correct. However, the identification of the considered reference is incorrect. The correct number is 1,198,713. It is respectfully requested that the Patent Office records be corrected so that the correct reference will appear on the face of the Letters Patent to issue from the above-identified application.

In support of this request attached hereto are copies of the initialed Form PTO-1449s as well as a copy of the first page of the identified reference showing the correct number.

Respectfully submitted,

Hope W. Carter
